

23 February 1962

MEMORANDUM FOR THE RECORD

SUBJECT: Report on Housing Conditions [REDACTED]

1. [REDACTED] representative of the Real Estate and Construction Division, Office of Logistics, reported by phone at 10:30 hours 23 February.

2. Currently [REDACTED] is having their biggest influx of tourists in its history. Motels and hotels are generally filled and living accommodations are at a catch-as-catch-can basis. The influx of tourists has not effected [REDACTED] yet as much as other areas of the city. [REDACTED] has made arrangements with the management of a motel near the airport to house our people on a temporary basis at military rates (\$10 a day for a double). This is about one-half the normal rate. [REDACTED] has a list of anticipated arrivals and feels confident that permanent housing for those desiring such can be arranged in the [REDACTED] area without too much difficulty. He believes that the rates established for housing assistance will probably be applicable in the [REDACTED] area but will not be sufficient for [REDACTED] or other areas. He recommended that these rates be re-studied after more data becomes available.

3. Arrangements were made for [REDACTED] to report by telephone to [REDACTED] at 10:30 each Friday or more frequently if the occasion arises.
